

# FIVE STEPS TO A DOMESTIC ANGELS MANAGEMENT FRANCHISE

## STEP 01

We like to talk to potential franchisees on the phone first for an informal chat where we can get to know each other a little better

## STEP 02

After that initial conversation, we'll ask you to fill in an application form, where you can tell us more about you... This gets the prospective franchisee process under way

## STEP 03

Candidates successful at this stage will be invited to a Discovery Session where you will be introduced to the internal workings of the business such as our in-house scheduler, intranet and, most importantly, we'll go through your business plan

## STEP 04

You'll get a one-to-one meeting with Domestic Angels founder Samantha Acton where we will agree your territory... Your franchise agreement will then be released for you to review

## STEP 05

After final due diligence, we'll get everything signed and sealed... leaving you free to start trading and training!
